

MANAGED DETECTION AND RESPONSE (MDR) SERVICES

Protect your Changing Environments with High-Touch, Risk-Based Threat Detection & Response Services, 24/7

A Different Approach to MDR

Rapid business transformation, the constant evolution of threats, and an increase in the speed of attacks are driving new security demands. Kudelski Security MDR services, delivered from our Cyber Fusion Centers, are built on proven methodology and industry-leading

technology separate signal from noise and detect and respond to threats rapidly and more efficiently, building long-term resilience to attacks and reducing overall business risk.

Not All MDRs Are Equal

Get better value from your security investments at a fraction of in-house costs. Kudelski Security MDR services act as an extension of your SOC team to detect effectively and respond rapidly with you, or on your behalf.

249%
Potential Return on Investment Rol

68%
Reduction in time to detect, investigate, and respond

<6 months
The breakeven point for outsourcing MDR to Kudelski Security

Stats from Forrester Total Economic Impact™ study into Kudelski Security's MDR, December 2023

Gain Greater Efficiencies in Threat Detection and Response

Our methodology is underpinned by the MITRE ATT&CK framework, a knowledge base of known attacker tactics, techniques, and protocols.

We customize our approach to your business environment and risk profile, and carry out targeted yet in-depth investigations on relevant threats.

We escalate validated, prioritized incidents to your team and co-remediate as needed.

MDR ONE Resolute

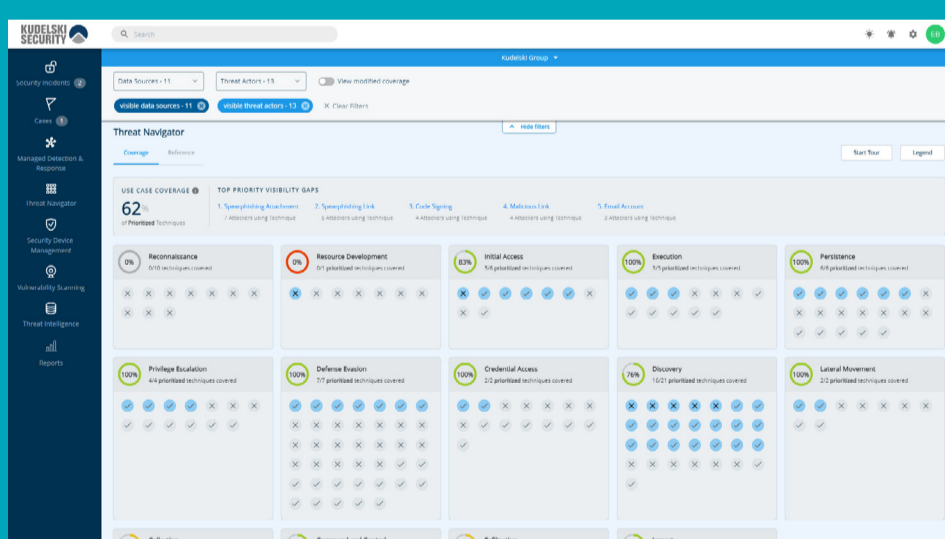

Take advanced threat detection and response to the next level. Powered by our Fusion Detect™ XDR platform, MDR ONE Resolute is a data-first offering that is rapid yet accurate, straightforward yet effective.

- 1) Solve the challenge of data with unlimited ingestion at predictable cost
- 2) Achieve faster time to value - integrates with your existing tech
- 3) Reduce time to detect, contain, and remediate
- 4) Move to proactive security with customized resiliency guidance
- 5) Empower security teams with a fully collaborative partnership

Kudelski Security Threat Navigator

We have developed Threat Navigator, a custom tool that helps you visualize your ATT&CK detection gaps.

From the Client Portal, the Threat Navigator offers instant visualization of your coverage and dynamic recommendations on how to address the highest priority gaps.

Holistic Security at Your Fingertips: The Award-Winning Client Portal

Our intuitive client portal provides you access to the Threat Navigator as well as a whole raft of content and intelligence.

Features include:

- Real-time dashboards and reporting
- Industry benchmarking
- Insight into threat hunting activities
- Incident details with prioritized advice
- Visualized SLA performance
- Direct access to analysts, 24/7
- Instant view of MITRE ATT&CK coverage
- Consistent resiliency guidance

Year After Year, Our MDR Is Recognized by:

Listed 6 years in a row, in the Market Guide for MDR Services, 2017-2023

Listed 4 times in the Market Guide for Digital Forensics and Incident Response Services, 2018-2023

Awarded 'Strong Performer', Forrester Wave™ for MDR, Q1 2021

Awarded Champion in the MDR Market Update, 2023

Recognized 6 consecutive times as a top 25 MDR provider in the Top 250 MSSP List, 2018-2023

Kudelski Security is an innovative and independent provider of tailored cybersecurity solutions, including MDR, to enterprises and public sector institutions, with dual headquarters in Switzerland and the U.S.
