

NEXGUARD DETECTION SERVICE

Identify Content Leak Sources & Quickly Take Action

Piracy is one of the biggest threats to revenue for any organization involved in the distribution of content. Businesses require fast, highly scalable, and automated solutions that deliver both file and continuous live detection.

Once piracy has been detected, organizations must be able to extract the forensic watermark from the pirate content to allow either legal action or relevant counter measures.

Solution Benefits

- 1 Convenient & Rapid Detection:** A cloud-based solution that supports blind-detection of forensic watermarks without any required reference to the original content.
- 2 Multi-Layered Protection:** Supports layering of all the NexGuard watermarking technologies and will automatically report on all NexGuard watermarks detected within pirate content.
- 3 Accurate, Automated & Scalable:** Provides a rapid anti-piracy response across files or live content with automated detection & ensures fast and consistent performance during times of high throughput.

For over 15 years, major movie studios, content owners, and distributors worldwide have entrusted NexGuard Watermarking technology.

A Powerful Solution for Today's Complex Market

Rapid anti-piracy response

Across either files or live content with automated detection.

Robust Watermarking

Throughout content transformation, regardless of content capture and redistribution methodology.

Multi-Watermark Capability

Enable traceability throughout the entire content workflow for movies, TV series, and live sports.

Bandwidth Efficiency

Minimize bandwidth requirements between anti-piracy monitoring and NexGuard Detection Services with the NexGuard Packer.

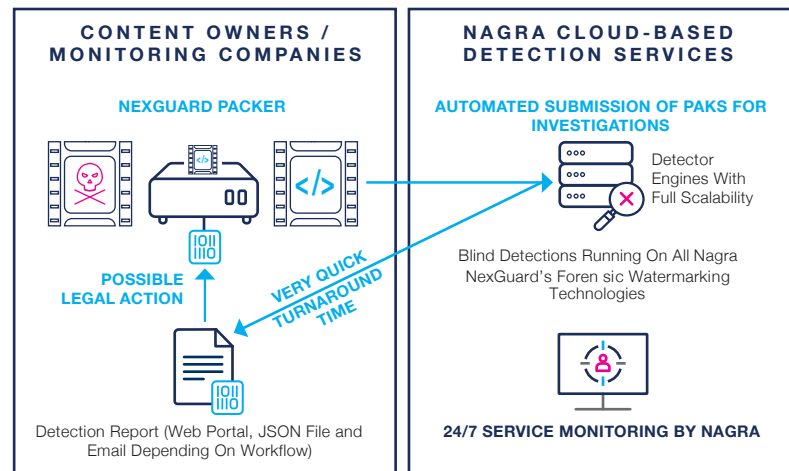

Easily Integrated

Supports all NexGuard Watermarking products, fully integrated with NAGRA Anti-Piracy Services, and easily integrated into other Piracy Monitoring Services.

Protect Valuable Content - Files & Live Streams

Key Features:

- Ease of Use with UI & Command Line Interface
- Auto-Scaling Cloud Infrastructure
- Multi-Layered Watermarking
- Robust Watermarking (detectable even after severe degradation)
- 24/7 Service Monitoring
- NexGuard Packer Client Software
- Quick Detection Time (with turnaround time as short as 3 minutes)

GLOBAL PAY-TV LEADER, \$1B REVENUES, LONG-TERM STABILITY

Who We Are

Successful Projects

500+

TV PROVIDERS GLOBALLY

Focused on helping solution providers increase monetization and consumer reach through comprehensive security solutions.

Satisfied clients

500M

PROTECTED DEVICES DAILY

Customer-focused. Delivering solutions as a service to optimize time to market and reduce operational overheads.

Customer Protection

4000+

PATENT PORTFOLIO

Robust IP protection with over 500 patents attributable to a wide range of innovative technology solutions.

Fully Charged and Ready

The Kudelski Group has a corporate history in the secure content, secure device and cybersecurity industries, and is one of the very few Amazon Authorized Security Test Labs in the world. If you'd like to learn more, experience NAGRA Scout yourself, or discuss further how it can add value to your broadband offering please Contact us. We look forward to continuing the conversation with you.

NAGRA Kudelski is the world leader in the development and delivery of state-of-the-art technologies to secure the revenues of content owners and service providers for digital television and interactive applications across all network types.
