

NEXGUARD PLUG-IN FOR EDITING SOFTWARE

Trace Potential Leaks in Editing & Collaboration Workflows

Leaks can occur during creative work, reviews, or approvals; and any leak can substantially negatively impact revenue and marketing.

NexGuard Plug-in for Editing Software allows studios, content owners, and post-houses to implement accountability, providing a strong deterrent against leaking and contributing to digital premium content's end-to-end protection

NexGuard Plug-in For Editing Software

Supports Popular Nonlinear Editing Software

- Media Composer from Avid
- DaVinci Resolve (available as proof-of-concept)
- Adobe Premiere Pro (ongoing R&D)

Solution Benefits

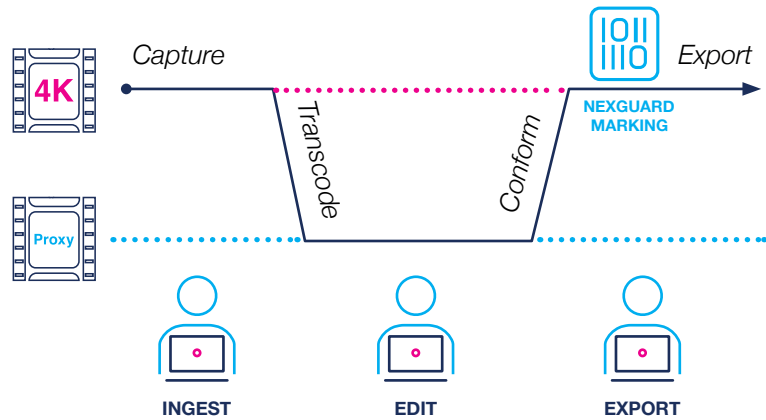

- 1 Seamless & Straightforward:** A simple video filter effect adds a unique, robust, and imperceptible forensic watermark to each content copy regardless of the input and output file formats.
- 2 Centralized & Integrated:** Provides a unified view of organizational watermarking activities in the NexGuard Manager.

For over 15 years, major movie studios, content owners, and distributors worldwide have entrusted NexGuard Watermarking technology.

Protect Valuable Content - Files & Live Streams

Key Features:

- Watermark embedding as a video filter effect
- Watermarking job metadata stored in the NexGuard Manager
- Supported file formats: any source & target formats and any video resolution & frame rate supported by the non-linear editing software

GLOBAL PAY-TV LEADER, \$1B REVENUES, LONG-TERM STABILITY

Who We Are

Successful Projects

500+

TV PROVIDERS GLOBALLY

Focused on helping solution providers increase monetization and consumer reach through comprehensive security solutions.

Satisfied clients

500M

PROTECTED DEVICES DAILY

Customer-focused. Delivering solutions as a service to optimize time to market and reduce operational overheads.

Customer Protection
