1.1. These General Conditions (the "Conditions") shall apply to all parts of the contract between Principal and SKIDATA and to all and any additional or subsequent orders (the "Contract").

1.2. Depending on the nature of the subject matter of the Contract, the relevant special terms and conditions of SKIDATA (the "Special Conditions") shall also apply. For example, the "Hardware Conditions" shall apply to the use of SKIDATA-hardware and the "Software Conditions" shall apply to the use of SKIDATA-software. The Special Conditions may be viewed and printed out at any time via SKIDATA's website. In the event of conflict between the General Conditions and the Special Conditions, the Special Conditions shall prevail.

1.3. Principal is either a SKIDATA-authorized distributor or an end customer of SKIDATA. If Principal is an authorized distributor, it is obliged to agree with its customers provisions according to the General Conditions as well as the applicable Special Conditions with the same material legal effect in the respective jurisdiction in favour of SKIDATA.

2. Offer, Conclusion of Contract

2.1. The scope of SKIDATA's delivery and/or service (collectively the "Performance") is set forth in SKIDATA's written offer. If SKIDATA confirms Principal's order in writing and the order confirmation deviates from Principal's order the Contract shall be concluded on the basis of SKIDATA's order confirmation unless Principal objects in writing within 8 (eight) days of receipt.

2.2. SKIDATA reserves the right to make changes to offers due to errors or typographical mistakes, also with regard to prices or technical specifications. SKIDATA's brochures or other advertising materials contain a general and non-binding description of the Performance and do not become part of the Contract.

2.3. Principal shall obtain any necessary permits from public authorities or other third parties required for the conclusion of the Contract and for rendering of the Performance. SKIDATA is not obliged to commence with the Performance until the required permits have been granted with legal effect. Principal undertakes to inform SKIDATA immediately of any permits required. Principal shall indemnify and hold SKIDATA harmless from any respective claims and/or proceedings.

3. Performance, Term of Performance

3.1. Unless expressly agreed in writing, performance periods are non-binding. If the performance is amended or supplemented by mutual agreement after conclusion of the Contract, the performance period shall be automatically extended by a reasonable period.

3.2. SKIDATA renders its Performance in a manner chosen by SKIDATA and customary in the industry within SKIDATA's official working hours. If the Performance is rendered outside normal business hours for reasons for which SKIDATA is not responsible, surcharges will be invoiced in accordance with SKIDATA's local price list valid at the time of the performance.

3.3. SKIDATA may in its sole discretion select the persons rendering the Performance and may also use third parties for this purpose.

3.4. The Performance shall be shipped EXW Salzburg (Incoterms 2010) at the expense and risk of Principal. Upon handing over to the carrier all risk shall pass to Principal. Special packaging shall be at Principal's expense. If agreed specifically, SKIDATA will insure the delivery against breakage, loss in transit, fire and perishing at Principal's expense.

3.5. In case of default in acceptance, Principal shall pay storage costs for ordered goods without prejudice of further claims by SKIDATA. Furthermore, Principal shall pay liquidated damages in the amount of 5 % of the purchase price as a contribution towards processing costs. SKIDATA reserves the right to assert further claims for damages.

3.6. Principal shall be responsible for the fulfilment of necessary technical requirements for the execution of the Performance. Principal guarantees that the technical equipment such as pipes, cables, hardware and networks, are in a technical faultless and operational condition and compatible with the Performance of SKIDATA. SKIDATA is entitled but not obliged to inspect such equipment for compatibility for a separate fee in accordance with SKIDATA's local price list valid at the time of the inspection.

3.7. If travel costs are not already included in the Contract, Principal shall bear SKIDATA's travel costs in connection with the provision of the Performance in accordance with SKIDATA's local price list valid at the time of the Performance.

3.8. If, for reasons for which SKIDATA is not responsible, additional work or services not included in the scope of the Contract are required in order to be able to provide the Performance, SKIDATA shall be deemed to have been commissioned by Principal with the execution of such additional work/services. Principal shall compensate SKIDATA for the respective costs in accordance with SKIDATA's local price list valid at the time of the execution of such additional work/services. Insofar as this is possible with reasonable effort, SKIDATA will consult with Principal prior to the execution of such additional work/services and try to obtain its instructions.

3.9. Principal shall only be entitled to use the Performance after full payment, at the notified place, for the notified purpose and only in accordance with the Contract. Any other use beyond this scope is prohibited and therefore requires a prior written consent of SKIDATA.

- 5.3.** Recurring payments are due in advance on the 5th day of the agreed invoicing period (e.g. month, quarter, year).
- 5.4.** SKIDATA shall be entitled to charge default interest of 1 % per month in the event of default of payment by Principal. Principal shall reimburse SKIDATA all costs of extrajudicial (e.g. dunning process) and judicial debt collection.
- 5.5.** Additionally, if any amounts due and payable under the Contract are not paid on their due date, SKIDATA is entitled to charge an administration fee of 25 € or the local equivalent in respect of that late payment. The administration fee will be invoiced separately for each instance of late payment.

- 7.3.** SKIDATA is entitled to inspect and remedy claimed defects at Principal's premises. Principal shall provide SKIDATA with the necessary resources and assistants free of charge. If the inspection reveals that there is no claim under warranty, Principal shall cover all costs incurred in accordance with SKIDATA's local price list valid at the time of the inspection.
- 7.4.** SKIDATA shall provide warranty within reasonable period of time at its sole discretion either by rectifying or replacing or by granting a price reduction or by rescission. At SKIDATA's request, Principal shall send the defective Performance to SKIDATA at Principal's expense. A claim for replacement delivery shall only arise after the defective Performance has been received by SKIDATA. Replaced parts become the property of SKIDATA. If transport of the defective Performance to SKIDATA is not possible or feasible, Principal shall reimburse SKIDATA for the respective additional costs in accordance with SKIDATA's local price list valid at the time of the Performance.

Any statutory presumption, in particular that defects occurring in the first six months after handover were already present at the time of handover, shall be excluded.

8.1. SKIDATA's products and systems may require the use of third party hardware, third party software or other third-party products (collectively the "Third Party Components") and/or may be associated with other requirements of Third Party Components. The corresponding requirements are described in the documentation for the respective Performance. SKIDATA may in its sole discretion supplement or modify such Third Party Components. Third Party Components are subject to the respective manufacturer's terms of use, which must be observed by Principal. Principal is responsible for complying with these terms of use. At the latest with the use of the Performance, Principal agrees to the respective terms of use.

8.2. Principal is obliged to keep Third Party Components up to date at all times and to perform provided updates of third-party software (such as but not limited to operating systems) without delay. The use of Third Party Components that is not up to date may result in restrictions on functionality or malfunction of SKIDATA's products and systems. Principal shall ensure that its cooperation partners also keep Third Party Components up to date at all times. Principal is solely responsible for procuring, installing, maintaining and operating Third Party Components.

8.3. The use of Third Party Components is at the Principal's own risk. SKIDATA is not liable for damages or losses caused by the use of Third Party Components. All costs and fees for Third Party Components shall be borne by Principal.

14.4. If a Force Majeure Event occurs, then the Party affected will as soon as reasonably practicable notify the other Party in writing of the nature and likely duration of the Force Majeure Event and take all reasonable steps to reduce its effect (but without incurring unreasonable additional costs).

14.5. The Party affected by the Force Majeure Event will notify the other Party in writing as soon as performance of its obligations is no longer prevented by the Force Majeure Event and the affected Party will resume the performance of such obligations as soon as reasonably possible.

14.6. If the Force Majeure Event continues for more than one month, the Parties shall use their reasonable efforts to amend the Contract in such a way that it allows the performance thereof. If despite said reasonable efforts no agreement can be found for the amendment of the Contract and the Force Majeure Event subsists for more than two
